PROFESSIONAL SUMMARY

B.A. Honours graduate in English transitioning into data analytics, with hands-on practice in MySQL and Excel. Practised SQL filtering, joins, aggregation, GROUP BY/HAVING, CTEs and window functions using sales and e-commerce-style datasets. Practising Excel formulas including IF/AND/OR, SUMIF/SUMIFS, COUNTIF/COUNTIFS, AVERAGEIF, VLOOKUP and INDEX/MATCH. Currently learning Python for data analysis. Seeking a fresher or trainee opportunity where I can apply my analytical thinking, communication skills and willingness to learn.

TECHNICAL SKILLS

SQL / Database	MySQL; SELECT, WHERE, ORDER BY, LIMIT; aggregate functions; GROUP BY/HAVING; joins; CTEs; subqueries; window functions (DENSE_RANK); date-based analysis.
Excel	IF, AND, OR, SUMIF/SUMIFS, COUNTIF/COUNTIFS, AVERAGEIF, IFERROR, VLOOKUP, INDEX/MATCH; data summaries and basic charts.
Python & Other Tools	Currently learning fundamentals, loops, conditions and basic scripting for data tasks. MS Word, PowerPoint; CorelDRAW and Adobe Illustrator.

PRACTICAL LEARNING

SQL Practice — Sales & E-commerce Datasets

- Wrote queries to summarise revenue, order counts and average order value by month/year.
- Practised customer-level spending and order-count analysis, product revenue comparisons, and ranking results with window functions.

Excel Practice — Product Sales Dataset

- Practised conditional totals and counts by region/product, multi-criteria SUMIFS/COUNTIFS, averages and lookup formulas.
